Subject: Petition Against the Duke Energy Rate Increase

Dear Commissioners:

As a Duke Energy electric customer, I encourage you to closely examine the Duke Energy electric rate proposal (2018-319-e) when it comes before you, Specifically, I am concerned that:

Duke Energy's proposal to increase the basic facilities charge, a fixed cost from \$8.29 to over \$28. This would make this mandatory fee one of the highest in the country and much higher than the other investor-owned utility in South Carolina which recently lowered its fixed cost.

The increase in this mandatory fee takes away customer control over my energy bill robs me of the full benefit of energy conservation efforts. It is important that you protect older consumers who may live on a fixed income.

Share your own thoughts with the SC Public Service Commission: This would be a travesty of justice if this increase goes into effect!

Senior's, low usage customers and other fixed income people will be severely and adversely affected by this. A small increase to moderate increase might be a little more believable but to increase triple fold all in one jump is greed and corruption!!!! Stop this travesty NOW!

Sincerely,
jeffrey rowles
